INFOWHYSE GMBH (GERMANY) ANNOUNCES THE LAUNCH OF APPLIVOTE™ 100 for MAC (A FREE UNREGISTERED SOFTWARE FOR SIMPLE VOTING APPLICATIONS)

Infowhyse, one of Europe's leading providers of audience response (electronic voting) systems and solutions, is delighted to announce that Infowhyse GmbH has launched Applivote™100 for MAC (further details on www.applivote.com.)

Applivote™100 for MAC is an unregistered free download of our new software for non-commercial use and that can be utilized with up to 100 Reply® Interact Series keypads.

Infowhyse, which has been an industry leading software developer for over 10 years and is best known for its increasingly popular Edivote®Pro software, including the free **Edivote®100** version available from www.edivote100.com, has now made available a free and simple voting application that can be used directly on an Apple Mac computer without the need to have an emulated windows or PowerPoint for MAC to be installed.

The key to Applivote™100 for MAC is simplicity! **START – STOP & DISPLAY** Press the start vote button on the Applivote™ tool bar which literally floats on top of your application/presentation. After the votes are collected press the stop vote button and your results chart pops-up in an unobtrusive position on top of your application.

Applivote™ 100 Highlights Include:

- ✓ **Stand Alone**
No extra Software required.
- ✓ **Top-most**
Runs on top of any PC application (separate versions for Windows and MAC).
- ✓ **Minimum Preparation**
Ability to pre-set Question.
- ✓ **Ad-Hoc Questions**
Instant Question with 2 clicks.
- ✓ **Transparent**
AppliVote™ overlays the voting application and the result on your current window.
- ✓ **Reports**
AppliVote™ produces a quick rtf report for each question (windows). AppliVote™ for Mac allows you to export all questions into a single Excel document.

Using the chosen Reply® Interact Series keypads together with AppliVote™ provides standard voting functionality outside PowerPoint including simple reporting.

Infowhyse GmbH established its operations in 2004, operating from their HQ offices in Bad Nauheim (near Frankfurt), Germany. Infowhyse has been at the forefront of audience response market development in its own right, as well as being the hardware provider, software developer and inventory hub for numerous resellers and service partner companies spanning some 30 countries.

For more information about Infowhyse GmbH and/or the Reply® range of Audience Response Systems, please visit www.infowhyse.com. Or contact Infowhyse on +49 6032 9259280 or by e-mail through the contact information provided above.

For more information about **AppliVote™ 100** and to access the free download please visit www.applivote.com. Or contact Infowhyse on +49 6032 9259280 or by e-mail through the contact information provided above.

Approved for immediate release: Monday 1st May 2017
